

Dan Sammons Bio, 1-25-2013

Dan Sammons is the President and CEO of LBF Engineering & Consulting Services, a professional services company based in the Central Florida area. Dan is an executive-level professional with over 25 years experience. An energetic, top performer with proven leadership and motivation skills, he has successfully cultivated and led “high performance teams” in new revenue identification, business capture, and proposal development in the Defense, Homeland Security, and Federal Agency markets. His experience spans all branches of the military services.

He has worked for multiple companies, large and small businesses, and brings a wealth of understanding of what works and what doesn't when it comes to winning new business and sustaining growth. Over the last several years, Dan has been strategically focused on supporting companies providing technology based training solutions to soldiers, sailors, marines, and airman.

Prior to his success in the Modeling & Simulation market, Dan spent over a decade in the Aerospace Industry. During this time, he successfully generated new business and led complex multi-disciplined engineering teams in advanced technology development. He also personally provided systems engineering and mechanical design engineering support for several major defense projects.

Prior to entering civilian life, Dan served in the US Navy Nuclear Submarine Force. He successfully qualified as a submarine warfare officer and was certified as a Nuclear Engineer by the Department of Energy. He managed and provided technical oversight of daily in-port and at sea submarine wide operations on a 688 Los Angeles Class fast attack submarine. He continuously trained and qualified junior officers and enlisted personnel for combat readiness and submarine watch-standing responsibilities. He successfully planned, coordinated, and supervised quality repairs and upgrades of nuclear power systems, electronics, and high pressure hydraulic, pneumatic and sea water systems during extensive ship overhaul periods.

Dan Sammons is a graduate of the United States Naval Academy and received a Bachelor of Science Degree in Physics. Dan met his wife, Carol, while he was stationed at Naval Submarine Base, Groton, CT. They have been married 22 years and have three children. Their oldest attends Florida State University, their middle child plans to attend University of Central Florida, and their youngest will soon be graduating from high school. They have been residents of Orange County Florida for over 10 years.

In addition to Dan's honorable military service as a Navy veteran, Dan has served on Service Academy Selection Boards interviewing and evaluating high achieving high school seniors considering entry into one of the service academies. Additionally, Dan is an active member in a local church body and has served in a number of capacities including men's small group leader, high school youth leader, and Sunday school teacher.
